EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with R Joseph Foster week of 4/10-14, and 4/20, 2006.

The application has been amended as follows:

In the Specification:

Line 1 has been changed to add --now US Patent 6702684,-- immediately after "10/186,940,".

In the Claims:

Claims 1-25 have been cancelled. Examiner notes that they are not listed on the latest listing of claims, and this is noted only for the convenience of the printer.

Claim 26, line 2, "application" has been changed to --applications--.

Claim 26, line 9, "pin are of" has been changed to --pin are of the--.

Claim 33, line 2, "application" has been changed to --applications--.

Claim 33, line 9, "applications having" has been changed to --of the applications having--.

Claim 33, line 9, "pin are of" has been changed to --pin are of the--.

Claim 33, line 14, "the applications" has been changed to --the three or more applications--.

Claim 40, line 2, "application" has been changed to --applications--.

Art Unit: 3677

Claim 40, line 9, "pin are of" has been changed to --pin are of the--.

Claims 32,39, and 46 have been amended to delete "ahat vayin" and insert in its place --that vary in--.

Claim 39 has been amended to depend from claim 33, NOT claim 34.

The following is an examiner's statement of reasons for allowance:

As to the reasons for allowability, it is the interchangeability of the system of plurality of pins and collars, designed to work as an interrelated system, with the multiple pins having grooves of different geometries and the multiple collars of different strengths and materials, being interchangeable and capable of use in different applications, that is not taught by the prior art. Examiner notes that the plurality of pins' lock grooves are not random or unrelated, but are sized such that the respective lock groove width is maximized relative to the respective collars.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Katherine W. Mitchell whose telephone number is 571-272-7069. The examiner can normally be reached on Mon - Thurs 10 AM - 8 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, J. J. Swann can be reached on 571-272-7075. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
